

Migration, Population and Poverty. A Theoretical and Empirical Projekt on South-North Migration and Control Policies of Industrialised Countries

Überblick

This project revisited theories of international migration from an interdisciplinary view, involving economists, political scientists, sociologists, anthropologists, geographers and development economists.

Laufzeit:

01. Januar 1996 - 31. Dezember 1998

Forschungsteam:

Thomas Faist (Projektleitung)

Tomas Hammer (Projektleitung)

Finanzierung:

Riksbanken, Schweden

Details

This project revisited theories of international migration from an interdisciplinary view, involving economists, political scientists, sociologists, anthropologists, geographers and development economists.

It asked provocatively the question Why do people not migrate? and addressed old questions, such as: Does migration from economically less developed countries stimulate or obstruct development? Does economic development reduce or increase the flows of migration? What are the self-feeding dynamics of a migration process.

Laufzeit:

01. Januar 1996 - 31. Dezember 1998
