Duration:

01 June 2010 - 30 June 2011

Research Team:

[Prof. Dr. Gerd Glaeske \(verstorben\)](#) (Head of project)

Cornelia Trittin, M.A.

Funding:

BARMER GEK

Details

The Medical Congress More attention to mental disorders! of the Barmer GEK and the Centre for Social Policy Research (ZeS) was held on 28/06/2011 in Berlin. This year's conference focuses its attention on an urgent topic in our health care system: incidence and treatment costs of mentally ill people are increasing dramatically in recent years. At the societal and medical level new challenges and necessary actions arise:

- Improvement of early diagnostics of evidence-based therapies, and adequate social support
- Strengthening the acceptance of mental illness
- Development of coordinated and integrated supply concepts
- Adjustment and control of development costs.

Speakers are in addition to Dr. Rolf-Ulrich Schlenker (Barmer GEK), Prof. Dr. Klaus Lieb (University Medical Center Mainz), Prof. Dr. Alexa Franke (formerly TU Dortmund), Prof. Dr. Hans-Ulrich Wittchen, TU Dresden) Dr. Iris Hauth (St. Joseph Hospital Berlin-Weissensee) and Prof. Dr. Gerd Glaeske.

Duration:

01 June 2010 - 30 June 2011
